Answer any **4** questions

Each question carries **5** marks

13. Explain the importance of opportunity recognition in entrepreneurship. [U] / [CO2]

Ans: Identifies market needs,Encourages innovation,Reduces risk,Ensures profitability, Creates employment

14. Explain the need for MoES Innovation Council in institutions. [U] / [CO3]

Ans: Higher education plays an important role in preparing students for employment, research and entrepreneurship. However, theoretical

knowledge alone may not be sufficient to solve the complex problems faced by society.

Innovation helps students apply their academic knowledge to real-life situations. For example, a microbiology student may learn about microorganisms, biotechnology, environmental microbiology and food microbiology in the classroom. Through innovation activities, the student can apply this knowledge to problems such as water contamination, food spoilage, waste management, agricultural productivity or environmental pollution.

15. Explain how entrepreneurship contributes toemploymentgeneration and economic development. [U] / [CO1]

Ans: Entrepreneurship promotes employment generation, innovation, income growth and overall economic development.

16. Explain the importance of intrapreneurship within a microbiology company. [U] / [CO1]

Ans: Encourages employees to develop new microbial products, vaccines, enzymes and diagnostic kits.Helps introduce advanced laboratory techniques and efficient microbial production methods.Encourages the development of better quality-control procedures and improved safety standards.

.

17. Explain social innovation with suitable examples. [U] / [CO2]

Ans: Initiatives driven primarily by the desire to solve social or environmental problems, while still generating revenue to sustain themselves.eg: Community biogas plants, Waste management initiatives

18. Explain the role of MoES in entrepreneurship development. [U] / [CO3]

Ans: Ministry of Education (MoE), Govt. of India has established 'MoE's Innovation Cell (MIC)' in 2018 to systematically foster the culture of Innovation amongst all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas while they are in formative years.

[5x4 = 20]
