THIRDSEMESTEREXAMINATION
(2024ADMISION ONWARDS)

MG3DSCMOS200 IoTforElectronics(Practical)

Duration:2hours **MaximumMarks:35**

Instructions:

Demonstrate the given task (Any one of the tasks listed below)

Vivasession:(Minimum5questionsfromthepracticalmodule)

Certified Lab report

EvaluationCriteria

- Viva:7 marks
- Labreport:8marks
- Demonstration:20marks

Tasks:*(SelectanyoneExercise)*

1. Readabuttonstate withdigitalinput usingtheESP32 Arduino.
2. Diman LEDwith PWMusingthe ESP32 Arduino.
3. Controlatrafficlightusing ESP32.
4. BasicBurglaralarm securitysystem withthehelp ofPIsensorand buzzer.
5. Temperaturesensor(DHT11)interfacing.
6. Bluetooth Interfacing.
7. Motordriver interfacing.
8. Createasimpleweb serverin theESP32
9. UseESP32with ultrasonicsensorHC-SR04 tocontrolservomotor
10. ControlLEDmatrixsign boardviawebinterfacing using ESP32
