22. Write a note on Cluster B personality traits according to DSM. (CO4 ,U)

23. Explain Problem focused thinking with an example. (CO3 ,U)

24. Describe the dimensions on which the MBTI personality traits are developed.

(CO2 ,An)

25. Discuss the stages of life according to Indian philosophy. (CO4 ,R)

26. Elaborate on narrative exercise. (CO3 ,U)

27. Write a note on unconditional positive regard (CO3 ,U)

28. What is trait approach to personality. Give any 2 examples. (CO2,K)

29. Explain the approach of Allport towards personality. (CO1 ,U)

30.Identify the movie character and explain his personality using appropriate cluster from DSM:

X is a character in a Malayalam movie obsessed with appearing "normal" and morally superior, often presenting himself as the ideal husband and protector. Beneath this polished exterior lies a controlling and manipulative personality—he exerts emotional dominance over his wife and her family, lacks genuine empathy, and becomes increasingly unstable when his authority is questioned. His need to uphold a flawless image masks deep insecurity, ultimately leading to aggressive behavior when that image begins to crack.

(CO4 ,An)

31.Explain the features of personality dominated by narcissism (CO4 ,U)

32. Describe the social factors that affect mental health. (CO1 ,U)

33. Analyse the personality traits of Joji from the Malayalam movie Joji using Big 5.

(CO2 ,An)
