QPCODE **Reg. No : .....**

Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

FOURTH SEMESTERMGU-UGP (HONOURS) REGULAR EXAMINATION
Fourth Semester

MG4DSCCFS202-INCIDENT RESPONSE IN CYBER FORENSICS
(2024 ADMISSION ONWARDS)

Duration: 1.5 Hours **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Short Answer Type Questions

Answer any **10** questions

Each question carries **1** marks

1. Define Incident Response. [K] / [1]
2. List any one phase of the Incident Response process. [K] / [1]
3. Identify one component of an Incident Response Plan. [U] / [1]
4. Explain the meaning of digital forensics. [U] / [1]
5. Select one example of host-based evidence. [A] / [2]
6. Show one situation where evidence volatility is important. [A] / [2]
7. Categorize network logs as a type of forensic evidence. [An] / [2]
8. Differentiate packet capture from network log files. [An] / [4]
9. Identify one tool used for packet capture. [K] / [4]
10. Explain what is meant by system memory evidence. [U] / [4]
11. Break down system memory artifacts used in forensic analysis. [An] / [4]

12. Select the most volatile form of digital evidence. [E] / [4]

[1x10 = 10]

Part B

Short Essay Type Questions

Answer any **4** questions

Each question carries **5** marks

13. Describe the phases of the Incident Response process. [U] / [1]

14. Explain the structure and components of an Incident Response Plan. [U] / [1]

15. List and explain the steps involved in the digital forensic process. [R] / [1]

16. Illustrate the procedure for acquiring host-based evidence. [A] / [2]

17. Explain the process of network evidence collection. [U] / [2]

18. Analyse packet captures to identify indicators of security incidents. [An] / [4]

[5x4 = 20]

Part C

Essay Type Questions

Answer any **2** questions

Each question carries **10** marks

19. Compare and distinguish the Incident Response Process and the Digital Forensic Process. [An] / [1]

20. Break down and analyse the techniques used for network evidence collection and packet capture in incident response. [An] / [4]

21. Evaluate the significance of system memory analysis and forensic reporting in cyber forensic investigations. [E] / [4]

[10x2 = 20]
