MAHATMA GANDHI UNIVERSITY, KOTTAYAM
MGU-UGP (HONOURS) REGULAR EXAMINATIN MARCH 2026
FOURTH SEMESTER
Discipline Specific Courses (DSC A) - MG4DSCFSQ200-SENSORY SCIENCE
(2024 ADMISSION ONWARDS**)**

Duration : 1 Hour 30 min **Maximum Marks: 50**

Remember (K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall attainability

PART A

Multiple Choice Questions

Answer **All** Questions

Each question carries **1** mark

1. The main purpose of sensory science is to [K]/[CO1]
   a) Measure chemical composition of food
   b) Evaluate consumer perception of food using senses
   c) Increase shelf life of food
   d) Reduce food cost
2. Identify the primary senses involved in sensory evaluation. [K]/[CO1]
   a) Vision, smell, taste, touch, hearing
   b) Taste, digestion, absorption
   c) Smell, respiration, hearing
   d) Touch, reflex, movement
3. Select the correct objective of sensory science. [K]/[CO1]
   a) Product formulation only
   b) Consumer preference assessment
   c) Shelf-life estimation only
   d) Cost reduction
4. Identify the principle that ensures unbiased sensory results. [K]/[CO1]
   a) Randomization
   b) Sterilization
   c) Homogenization
   d) Standardization of ingredients
5. Name the type of sensory panel trained to detect small differences. [K]/[CO2]
   a) Consumer panel
   b) Semi-trained panel
   c) Trained panel
   d) Expert panel
6. Name the feature that prevents interaction among panelists. [K]/[CO2]
   a) Ventilation
   b) Individual booths
   c) Central table
   d) Open layout

7. Select the commonly used scale for consumer acceptance testing. [K]/[CO2]
   a) 5-point hedonic scale
   b) 7-point hedonic scale
   c) 9-point hedonic scale
   d) 11-point scale
8. Identify the test used to detect differences between two samples. [K]/[CO3]
   a) Triangle test
   b) Paired comparison test
   c) Hedonic test
   d) Ranking test
9. Select the structure containing olfactory receptors. [K]/[CO1]
   a) Nasal septum
   b) Olfactory epithelium
   c) Turbinates
   d) Sinus
10. Identify the basic taste not recognized by the tongue. [K]/[CO1]
    a) Sweet
    b) Salty
    c) Bitter
    d) Pungent

(1 X 10 = 10)

PART B

Short Essay Type Questions
Answer any **4** questions
Each question carries **5** marks

11. a) Recall the definition of sensory evaluation. b) Identify the role of sensory science in food quality control. [K]/[CO1]
12. Differentiate between subjective and objective evaluation. [U]/[CO1]
13. Describe the layout of an ideal sensory evaluation room. [U]/[CO2]
14. Define sensory scale. Name different types of sensory scales. List the advantages of numeric scale. [K]/[CO2]
15. Describe difference test with scorecard. [U]/[CO3]
16. Discuss the mechanism of smell perception. [U]/[CO1]

(5 X 4 = 20)

PART C

Essay Type Questions
Answer any 2 questions
Each questions carries **10** marks

17. Explain sensory evaluation. Describe its objectives, scope, and limitations in food quality assessment. [U]/[CO1]
18. Classify sensory panelists. Compare trained panel, semi-trained panel, and consumer panel. [U]/[CO2]
19. Differentiate between taste and flavour. Explain the role of gustation in food acceptability. [U]/[CO1]
20. Define sensory test. Classify sensory test based on purpose. [K]/[CO3]

(10 X 2 = 20)
