MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) MODEL QUESTION PAPER

FOURTH SEMESTER

MG4DSEECO200 - Exploring Economic Data Analytical Tools

(2024 ADMISSION ONWARDS)

Duration: 1 Hour 30 Minutes Maximum Marks: 50

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Multiple Choice Questions

Answer all questions

Each question carries **1** marks

1. Common use case of SPSS in economics? [K-CO1]

   a) Graphic design b) Survey data analysis

   c) Video editing d) Web development

2. Primary SPSS tool for economic data presentation? [K-CO1]

   a) Text editor b) Charts and graphs

   c) Audio processing d) 3D modeling

3. Default file format for saving EVIEWS workfiles? [K-CO1]

   a) .xlsx b) .csv

   c) .wf1 d) .txt

4. EVIEWS command to load economic time series data? [K-CO3]

   a) plot b) summary

   c) run d) load

5. STATA command for changing economic data structure? [U-CO3]

   a) reshape b) delete

   c) copy d) print

6. SAS panel used for writing economic analysis code? [K-CO1]

a) Program editor b) Viewer

c) Files d) Help

7. RStudio panel for writing and executing R commands? [K-CO4]

a) Environment b) Help

c) Plots d) Console

8. Power BI classified as? [K-CO1]

a) Spreadsheet b) Database

c) Data visualization tool d) Word processor

9. Main Power BI use in economics? [U-CO4]

a) Text editing b) Business intelligence dashboards

c) Music creation d) Game development

10. Final step in Power BI dashboard creation? [U-CO2]

a) Data import b) Publish and share

c) Delete data d) Close software

11. Which measure of central tendency best handles economic outliers ? [K-CO1]

a) Mean b) Median

c) Mode d) Range

12. R developed primarily for applications in? [K-CO1]

a) Gaming b) Data science and statistics

c) Graphic design d) Web development

13. Base R function for basic correlation analysis of economic variables? [A-CO3]

a) mean() b) cor()

c) plot() d) summary()

14. Key role of visualization in economic data analysis? [U-CO3]

a) Data deletion b) Identifying trends/patterns

c) File compression d) Text summarization

15. Power BI feature used for cleaning imported economic survey data? [A-CO2]

a) Power Query Editor b) Canvas

c) Filters only d) Export tool

1x15=15

Part B

Short Answer

Answer any **10** questions

Each question carries **2** marks

16. State two criteria for choosing data analysis software in economic research. [K-CO1]

17. List two SPSS features for economic statistical hypothesis testing [K-CO1]

18. Identify two SPSS limitations with massive economic panel datasets. [U-CO1]

19. Name two primary econometric applications of GRETL software. [K-CO3]

20. State two GRETL advantages over Excel for time series analysis. [U-CO3]

21. List three economic research applications of EVIEWS software. [K-CO1]

22. Outline basic steps to launch EVIEWS and import CSV data. [A-CO2]

23. Mention two STATA limitations for simple visualization tasks. [U-CO4]

24. Describe SAS historical origin and main economic survey use. [K-CO1]

25. Name two SAS advantages processing large-scale economic surveys. [U-CO3]

26. Explain purpose of SAS "DATA" step for dataset creation [U-CO2]

27. Identify two essential R packages for economic data visualization. [K-CO4]

28. State two main challenges of R learning curve for economists. [U-CO1]

2x10=20

Part C

Short Essay

Answer any **3** questions

Each question carries **5** marks

29.	Explain step-by-step process to create and customize histogram of economic dataset (e.g., income distribution) using SPSS visualization tools	[A-CO2]
30.	Discuss key features and advantages of GRETL interface and basic commands for econometric analysis of time series economic data	[U-CO3]
31.	Describe STATA's key features and data management workflow (importing, cleaning, transforming) for economic panel data analysis such as household surveys	[A-CO2]
32.	Analyse how basic R programming syntax and commands enable fundamental statistical analysis of economic datasets	[An-CO3]
33.	Discuss process of creating interactive dashboards in Power BI for real-time economic policy monitoring, emphasizing user engagement and decision-making impact.	[U-CO4]

3x5=15
