MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS)

FOURTH SEMESTER EXAMINATION

(2024 ADMISION ONWARDS)

MG4SECLIS200 – Information Search and Retrieval Techniques

Duration: 1.5 hrs Maximum Marks: 50

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A
Short Answer Questions
Answer **All** Questions
Each question carries **1** mark

1.	Define the term information.	[K] [CO 1]
2.	Point out one difference between print and digital sources.	[U] [CO 1]
3.	State the main function of indexing.	[U] [CO 1]
4.	Mention one characteristic of the Deep Web.	[K] [CO2]
5.	Identify one difference between open data and linked data.	[U] [CO 2]
6.	Indicate the importance of MeSH in biomedical information retrieval.	[K] [CO 2]
7.	Write down one advantage of WebOPAC over OPAC.	[U] [CO 2]
8.	Expand the abbreviation RDM and state its purpose.	[K] [CO 2]
9.	Name one AI tool used in libraries. What is its primary function?	[K] [CO 3]
10.	Recall one difference between precision and recall. Give an example.	[U] [CO 3]

[1 x 10 = 10]

Part **B**
Short Essay Type Questions
Answer **4** Questions
Each question carries **5** marks

13.	Discuss the purpose of Information Retrieval systems in academic libraries.	[U] [CO 1]
14.	Explain the main types of IR systems and their components.	[K] [CO 1]
15.	Describe the major features of Web of Science and Scopus.	[K] [CO 2]
16.	Explain how federated search systems improve user experience in accessing multiple databases.	[U] [CO 3]
17.	Differentiate between misinformation and disinformation with suitable examples.	[U] [CO 3]

[5 x 4 = 20]

Part **C**
Essay Type Questions
Answer **2** Questions
Each question carries **10** marks

18.	Describe print and digital information sources with suitable examples. Explain their relative importance in modern information systems.	[U] [CO 1]
19.	Explain the concept of search engines and discuss their major types. Describe the key features that distinguish one type of search engine from another.	[U] [CO 2]
20.	Illustrate how multimedia, semantic, conversational, and image search are used in modern information retrieval systems.	[A] [CO 3]

[10 x 2 = 20]
