MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGPP (HONOURS)

FOURTH SEMESTER EXAMINATION

(2024 ADMISSION ONWARDS)

MG4VACZIM200 – NUTRITION AND LIFE STYLE DISEASES

Duration :1.5 hrs Maximum Marks :50

Students should attempt atleast one question from each course outcome to enhance their overall out come attainability.

Part A

Fill in the blanks Answer all Questions

Each question carries **1** marks

1. The science that deals with food and its relation to health is called.....[U] [CO1]
2. Vitamin K is essential for .....clotting. [K][CO2]
3. The enzyme with RNA as catalytic molecules are called.....[U] [CO3]
4. The Michaelis -Menten equation is V=Vmax[S] / (Km +..... [K][CO4]
5. .....diseases are diseases caused mainly due to unhealthy habits.[U][CO5]
6. Hypertension without an identifiable cause is called.....hypertension.[U][CO6]
7. The gold standard cardiac biomarker for MI is..... [K][CO6]
8. The non protein part required for enzyme activity is called a..... [U[[CO3]
9. The most widely consumed cereal in India is..... [K][CO1]
10. The richest dietary source of calcium is..... [U][CO2]

[1 × 10 =10]

Part B

Short Questions

Answer any **10** Questions

Each question carries **2** Marks

11. Summarize the importance of RDA in maintaining health. [U][CO1]
12. List the different types of eggs used for consumption. [K][CO1]
13. Write short note on deficiency disease associated with Vitamin A. [K][CO2]
14. Explain why co factors are necessary for enzyme function. [U][CO3]
15. Differentiate between Km and Vmax. [K][CO4]
16. Compare the relationship between diet and diabetics. [U][CO5]
17. Mention any two risk factors associated with myocardial infarction. [K][CO6]
18. Name two disease associated with lack of sleep. [U][CO5]

19. Define enzyme specificity. [K][CO4]

20. Compare the role of Mg and Zn as co factor. [U][CO3]

21. Discuss why Vitamins are called protective food. [U][CO2]

22. Describe the term "plaque rupture". [K][CO6]

[2 × 10 =20]

Part –C
Short Essay Type Questions
Answer any **5** Questions
Each question carriers **4** marks

23. Describe the role of cholesterol in atherosclerosis.. [U][CO6]

24. Differentiate between enzyme specificity and substrate specificity with suitable example. [U][CO4]

25. Describe the application of RQ in clinical nutrition.. [A][CO1]

26. Write an essay on vitamins and their role in growth, health, and immunity.[U][CO2]

27. Discuss the basis of enzyme classification according to IUBMB system. [U][CO3]

28. Compare and contrast lifestyle disease in urban and rural populations. [U][CO5]

29. Illustrate the importance of carbohydrates,proteins and fats in human nutrition. [U][CO1]

[4 ×5 =20]
