QP CODE: **Reg No:……..**

Name:…….....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) REGULAR EXAMINATION OCTOBER 2026

Fifth Semester

MG5DSECFS300 - REMOTE SENSING NETWORK

(2024 ADMISSION ONWARDS)

Duration: 2 Hours Maximum Marks: 70

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Very Short Answer Questions

Answer any **10** questions

Each question carries **2** marks

1. Define Remote Sensing. [K] [CO1]
2. List the characteristics of Electromagnetic Radiation. [K] [CO1]
3. Identify the purpose of Meteorological Satellites. [U] [CO2]
4. Describe a Sensor. [U] [CO2]
5. Differentiate between Active and Passive Sensors. [U] [CO2]
6. Summarize the function of a Platform in Remote Sensing. [U] [CO2]
7. List any two application of Ground Observation Platforms. [K] [CO2]
8. Distinguish between Ground Truth and Ancillary Data. [An] [CO3]
9. Illustrate the need for data integration in Remote Sensing. [An] [CO3]
10. Outline the basic operations of Digital Image Processing. [An] [CO3]
11. Write any two applications of Remote Sensing in Agriculture. [A] [CO4]
12. Show how remote sensing is used in Land-Use Mapping. [A][CO4]

[2x10 = 20]

Part B

Short Answer Questions

Answer any **6** questions

Each question carries **5** marks

13. Explain about the interaction of Electromagnetic Radiation with atmosphere. [U] [CO1]
14. Differentiate between Space-borne and Airborne Observation Platforms. [U][CO2]
15. Discuss the advantages and limitations of Optical, Microwave and Thermal Sensors.[U] [CO2]
16. Examine the importance of integrating Remote Sensing data with GIS. [An] [CO3]
17. Explain the elements of Visual Image Interpretation. [U] [CO3]
18. Examine the limitations of Remote Sensing data analysis. [An] [CO3]
19. Illustrate the application of Remote Sensing in Ocean and Coastal Monitoring. [A] [CO4]
20. Write how Remote Sensing can be used to monitor Atmospheric Constituents. [A] [CO4]

[5x6 = 30]

Part C

Essay Questions

Answer any **2** questions

Each question carries **10** marks

21. Explain Electromagnetic Spectrum. Discuss the major divisions of Electromagnetic Spectrum. [U] [CO1]
22. Examine the process of Remote Sensing Data Analysis. [An] [CO3]
23. Illustrate the application of Remote Sensing in Geology with examples. [A] [CO4]

[10x2 = 20]
