MAHATMA GANDHI UNIVERSITY, KOTTAYAM
FIFTH SEMESTER
MGU-UGP (HONOURS) REGULAR EXAMINATION
DISCIPLINE SPECIFIC ELECTIVE COURSE: MG5DSEZGY302, MG5DSEZIM302
CLIM ATE CHANGE AND DISASTER RISK REDUCTION
(2024 ADMISSION ONWARDS)
MODEL QUESTION PAPER

Duration :2 hrs **Maximum Marks:70**

Students should attempt at least one question from each CO to enhance their overall outcome attainability

PART-A

Multiple Choice Questions (1 Mark Each). All questions compulsory

1. Which gas is a major greenhouse gas emitted from fossil fuel combustion? [K] [CO1]

a) Helium

b) Carbon dioxide

c) Nitrogen

d) Oxygen

2. A series of massive waves due to sudden displacement of water mainly from underwater earthquake is ……..

a) Landslides [U] [CO1]

b) Drought

c) Tsunami

d) Cyclone

3. Disaster Risk Reduction mainly aims to ……. [U] [CO3]

a) Increase hazards

b) Reduce disaster losses

c) Stop rainfall

d) Promote pollution

4. A potentially damaging event or phenomenon is called …… [K] [CO3]

a) Recovery

b) Hazard

c) Relief

d) Reconstruction

5. GPS is mainly used for …….. [U] [CO3]

a) Water purification

b) Waste management

c) Weather forecasting

d) Location tracking

6. An approach that promotes economic progress while protecting and conserving nature and natural resources is…….. [A] [CO4]

a) Brown economy

b) Green growth

c) Grey economy

d) Industrial regression

7. The main objective of Kyoto protocol is …….. [K] [CO5]

a) Reduction of emission of greenhouse gases

b) Disaster management

c) Coastal zone management

d) Biodiversity conservation

8. A technology widely used in disaster risk mapping in Kerala is ……. [A] [CO5]

a) Blockchain technology

b) GIS and remote sensing

c) Nanotechnology

d) Biotechnology

9. Eco-grief deals with ……..…….. [U] [CO2]

a) Stress due to industrial pollution

b) Fear of earthquakes

c) Fear of technology

d) Grief caused by degradation of home environment

10. Threat to India's water security is contributed by …… [U] [CO2]

a) Intensifying droughts

b) Extreme floods

c) Sea level rise

d) All off the above

(10x1=10 Marks)

PART-B

Short Answer Questions (3 Marks Each). Answer Any 10 out of 12

11. Name three adverse effects of acid rain. [K] [CO1]

12. Differentiate between carbon footprint and carbon trading. [U] [CO1]

13. What is safety auditing? [U] [CO3]

14. State any three risks faced by children during disasters. [K] [CO2]

15. Mention any three psycho-social effects of extreme heat. [U][CO2]

16. Discuss the role of Post-Disaster Needs Assessment (PDNA) in recovery planning. [U] [CO3]

17. Give a brief account on disaster safe designs and constructions. [U] [CO3]

18. Differentiate between response and relief in disaster management. [U] [CO3]

19. Write a note on early warning systems. [K] [CO4]

20. What are the objectives of Integrated Coastal Zone Management (ICZM)? [U] [CO4]

21. Which is the technology employed for pre-disaster vulnerability assessment? [A] [CO4]

22. How is data analytics used in predicting and managing disasters? [A] [CO5]

(10x3= 30 Marks)

PART-C

Short Essay Questions (5 Marks Each). Answer Any 6 out of 8

23. Describe the causes and adverse effects of wildfire. [U] [CO1]

24. Discuss the psycho-social impacts of droughts and depletion of ground water. [U] [CO2]

25. Highlight the effects of climate change on agriculture and food security. [U] [CO2]

26. Describe the role of Environmental Impact Assessment (EIA) in disaster risk reduction. [U] [CO3]

27. Examine the importance of disaster-safe designs and land use planning. [U] [CO3]

28. Explain the principles and importance of Integrated Water Resources Management (IWRM). [U] [CO4]

29. Discuss the major international treaties and agreements formed to combat climate change [U] [CO4]

30. Examine successful disaster management cases in Kerala. [A] [CO5]

(6x5= 30 Marks)
