15. Explain the process of MAP and its importance in food packaging. [U] [3]
16. Discuss the Selection criteria for packing material in food industry. [An] [2]
17. Explain the different types of paper used in food packaging. [R] [1]
18 What is the role of FSSAI in regulating food packaging materials in India? [U] [2]
19 Write about migration tests of food packaging materials. [A][5]
20. Discuss the methods used for identification of plastics commonly employed in food packaging [A] [3]

Part C
Long essay type questions
Answer any 2 questions
Each question carries 10 Marks

21. Write an essay on classification of food packaging material based on material composition such as paper, glass, metals, plastics & laminates with advantages and limitations.[U] [1]

22. Explain in detail the functions of food packaging. [R] [5]

23. Write an essay on modern food packaging technologies. [An] [4]

24. Explain the principles of MAP & CAP. Discuss the mechanism, limitations and applications in food preservation. [A] [3]

MAHATMA GANDHI UNIVERSITY, KOTTAYAM
MGU-UGP (HONOURS)
FOURTH SEMESTER EXAMINATION
(2024 ADMISSION ONWARDS)
COURSE CODE: MG4DSEFTQ201
COURSE TITLE: FOOD ENGINEERING

Duration: 2 hrs Maximum Marks: 70

Part A

Answer in one word
Each question carries **1** Mark

1. Define temperature. [R] [1]
2. What is boiling point? [U] [1]
3. State the SI unit of heat.
   [R] [1]
4. What is dimensional analysis? [U] [4]
5. Define fouling? What are the advantages of plate heat exchangers?
   [R] [2]
6. State the First Law of Thermodynamics.
   [A] [3]
7. Define entropy. [An] [3]
8. Write down the Bernoulli's' equation and explain all the terms involved?
   [E] [2]
9. Define steady state.
   [R] [1]
10. Briefly explain on reverse osmosis
    [U] [2]

(10x1=10 marks)

Part B

Short Essay Type Questions
Answer any **6** questions
Each question carries **5** Marks

Edit with WPS Office

11. Explain Celsius, Fahrenheit and Kelvin scales of temperature with conversions. [R]

[2]

12. Discuss specific heat and thermal conductivity and thermal diffusivity and its unit [U] [4]

13. Describe the concept of unit operations in food processing [U] [5]

14. Explain phase transitions in water (freezing, melting and crystallization). [A] 3]

15. . Discuss the First and Second Laws of Thermodynamics in food systems. [U] [5]

16. Write short notes on microwave heating and dielectric properties of foods.
[An] [4]

17. Describe thermal properties of foods. [U] [2]

18. Describe U-tube manometer with a sketch [U] [4]

(6x5=30 marks)

Part C

Long Essay Type Questions
Answer any **2** questions
Each question carries **15** Marks

19. Explain heat and mass transfer systems used for heating and cooling of food products.
[U] [2]

20. Explain the design on tubular heat exchangers.
[U] [4]

21. Discuss on evaporators. Explain the different types of evaporators with schematic representation used in food industry [R] [2]

22 Explain rheology of foods with classification of Newtonian and non-Newtonian fluids and their applications in food processing.
[A] [4]

(2x15=30 marks)

FOURTH SEMESTER EXAMINATION

(2024 ADMISSION ONWARDS)

COURSE CODE – MG4SECFTQ200

COURSE TITLE: BAKING TECHNOLOGY

Duration : 1.5 hrs Maximum Marks : 50

Part A

Short Answer Type Questions

Answer any 5 questions

Each question carries 2 marks

1.Define baking. [K] (1)

2.What is a leavening agent. [K] (2)

3.Why fermentation is important in baking. [U] (2)

4.What is staling of bread. [K] (3)

5.Why fat is added to cookies. [U] (4)

6.Name two types of cakes. [K] (5)

7.Name two ingredients used in pastry. [U] (6)

Part B

Short Essay Type Questions

Answer any 5 questions

Each question carries 4 marks

8. Explain the basic principles of baking. [U] (1)

9. Describe the role of sugar in yeast fermentation during dough making. [A]

Edit with WPS Office

(2)

10.State the importance of proofing in bread making. [U] (2)

11. Write the ingredients used in bread and their roles. [K] (6)

12.Write the steps of Cookie preparation.
[K] (4)

13.Write a short note on cake decoration methods.
[K] (5)

14. How to prevent biscuits from cracking while baking? [A]
(6)

Part C

Long Essay Type Questions

Answer any 2 questions

Each question carries 10 marks

15.Explain the role of flour, water, yeast, salt and sugar in dough making. [U]
(2)

16.Describe in detail the steps involved in bread processing. [K] (6)

17.Evaluate the importance of labeling and packaging of cakes. [E]
(5)

18. Describe the process of biscuit making. [K]
(6)

FOURTH SEMESTER EXAMINATION

(2024 ADMISSION ONWARDS)

COURSE CODE – MG4VACFTQ200

COURSE TITLE: ENTREPRENEURSHIP DEVELOPMENT

Duration: 1.5 hrs Maximum Marks: 50

Part A

Short Answer Type Questions

Answer any 5 questions

Each question carries 2 marks

1. Define entrepreneurship. [U] (Co 1)

2. Who is an intrapreneur? [U] (CO1)

3. What is SIDBI? [U] (CO3, 4)

4. What is SWOT Analysis? [U] (CO5)

5. What is DIC? [U] (CO3, 4)

6. What is seed Capital? [U] (CO2, 3)

7. What is start up? [U] (CO 5)

Part B

Short Essay Type Questions

Answer any 5 questions

Each question carries 4 marks

8. Distinguish between intrapreneur and entrepreneur. [E] (CO 1)

9. Describe the functions of women entrepreneur? [E] (CO 1)
